

## Conditions packages OHM, AMPERE and VOLT at OPSN [from September 20, 2022]

### Conditions.

The conditions attached to the purchase of packages OHM, AMPERE and VOLT from the ONSHORE POWER SUPPLY NETWORK are simple, transparent and clear. We use no legal stuff and no ifs and buts. What we put on paper are just reasonable agreements that are legible and understandable for everyone. Ten items, that's it.

////////////////////////////////////

1.  
The ONSHORE POWER SUPPLY NETWORK is a network that aims to bring parties together that strive for a powerful shore-side power network in The Netherlands and in Europe.
  
2.  
The ONSHORE POWER SUPPLY NETWORK is characterized by its informal atmosphere, where network participants are open about developments in the shore-side power market, want to share knowledge and jointly strive for progress and realization of a well-covering shore-side power network. The buyers of a package (the participants in the network) can have different backgrounds, for example (inland) ports, companies and (government) organizations. A common characteristic is that everyone is relevant to shore-side power development and takes a proactive and cooperative attitude during activities.
  
3.  
Basically, four events are organized per calendar year. The events can be physical on location, or online via Microsoft Teams. Everyone who purchases a package has access to the events. Depending on which event it concerns, an x number of tickets will be made available per package.
  
4.  
Everyone who joins the network tries to be present at all events. In the unlikely event that the main member cannot be present, a replacement can be registered.
  
5.  
The invoicing of the packages is done annually. Payment will be made by a purchaser of the package prior to the next activity and there will be no refund. This simply means: you can join the network every year, against payment of the entire amount of the package. And you ensure that you are present as much as possible to make use of the network. If you join in the meantime, you pay for 12 months from that moment. So starting July 1, 2022, means a membership until June 30, 2023.

6.

You can cancel at any time. Of course we hope that everyone sees the value of the network and remains as long as the network is relevant. If you cancel, you retain the right to attend all activities that belong to a package in the current year.

7.

We are a network that is open to suggestions, activities, initiatives and innovation. If you want to bring something in, please mail to [serge@opsn.nl](mailto:serge@opsn.nl)

8.

The ONSHORE POWER SUPPLY NETWORK is directed and organized by Port Solutions Rotterdam B.V..

9.

Port Solutions Rotterdam B.V. is not liable for damage as a result of attending ONSHORE POWER SUPPLY NETWORK activities and/or any other damage that a buyer of a package may suffer as a result of joining the ONSHORE POWER SUPPLY NETWORK.

10.

Matters that are not described in these terms and conditions are reasonably discussed/coordinated with the organization behind the ONSHORE POWER SUPPLY NETWORK. Please contacts Serge Vavier for this, via [serge@opsn.nl](mailto:serge@opsn.nl)
